### **LakeFrontData adds former Capco Reference Data Executive to Advisory Board**

LakeFrontData is pleased to announce that Predrag Dizdarevic, former EVP of Capco Reference Data Services, has joined the LakeFrontData Advisory Council and Mr. Dizdarevic's company KonsultLab LLC has joined LakeFrontData Data Management Partner Program. LakeFrontData and Predrag / KonsultLab are collaborating on a number of Data Management market opportunities. LakeFrontData is the premier source of EDM consultancy and is working with Predrag as a partner and industry-leading management expert in the data management space.

Predrag is currently an independent consultant and entrepreneur focusing on technology and services business within financial services industry. He was formerly a Partner and Executive Vice President at Capco and a member of the Executive Management Committee. As Head of Capco Reference Data Services, Managed Services and Solutions, he developed and commercialized innovative and transformational business and technology solutions that drove recurring service, license and transaction revenues to Capco. Prior to joining Capco, Predrag was a President and CEO of Financial Technologies International (aka GoldenSource), transforming the firm into a strong, profitable and innovative software provider. Prior to FTI, Predrag held a variety of senior management positions with Computer Associates, where he was responsible for the development and deployment of new strategic initiatives in object databases, enterprise management, and application development systems

Dale Richards, CEO of LakeFrontData comments "we are thrilled to have Predrag as a partner on our advisory board, he is a tremendous talent, pioneer and leader in managed data services. His knowledge, reputation and personal integrity are a great asset in continuing LakeFrontData growth".

#### **About LakefrontData**
